

Sub-Processor Notice

Effective date: November 1, 2025

Purpose

GuardRail uses third-party providers to support infrastructure and service delivery.

Typical Sub-processor Categories

These may include providers for:

- cloud hosting,
- database hosting,
- file storage,
- email delivery,
- payment processing,
- analytics and error monitoring,
- customer support tools.

Availability

A current list of material sub-processors may be made available on the website or on request.

Changes

GuardRail may add or replace sub-processors from time to time as the Services evolve.
